Re: 03-3316

Dear Sir/Madam,

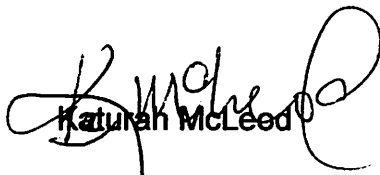

I would like to thank you for contacting me regarding my inheritance. At first I thought it was all a hoax. Then, after hearing the name Edward Worosylla, I began to think this must be true.

I wish to personally thank Jeanne Feeney for her words of comfort over the past years. There were times when I felt like giving up, but after talking to her she gave me a little more courage with which to continue.

The fact that you didn't request any up-front money in advance and the trouble your company had collecting from Mr. Sponder, makes me believe that yours is a company that does what they say they will do.

Although it was a long drawn out case, it did finally come to an end. Again, I really appreciate and thank you for all your help.

Sincerely,

  
Keturah McLeod
