Dear Mr. Morse,

The members of the Seminole Community College SALI program wish to extend their sincere thanks and appreciation for visiting our campus and presenting a Study of Family Ancestries

I am sure you must have noticed that your presentation was well received, as shown by the interest and participation of your audience. Some Community Education staff members interested in this subject matter attended the Study and thoroughly enjoyed it.

It was a great pleasure meeting you and once again, thank you so much for sharing your time, talent, and expertise with us.

Yours truly,

A handwritten signature in cursive script that reads "Nancy Leich".
