Morse and Morse,  
Locaters International

I want to thank you for the fine work of locating me concerning the estate of Maria Schimmel. If it was not for you I would have never known about this relative.

Also want to thank you for doing everything you said in our agreement, For following the case through, keeping me informed of proceedings and obtaining my money. Last but not least you did not ask me for money in advance, which I would not been able to afford. Again thank you
